

CYCLE WORKS, LLC

SC 1200

CHELATED TURF SPECIAL PLUS IRON

"COMMERCIAL USE ONLY"

Min Guaranteed Analysis

Total Nitrogen (N) 12.00%
 12.00% Urea Nitrogen
 Iron (Chelated) Fe 3.00%
 Manganese (Chelated) Mn 2.00%
 Sulfur as (S) 3.00%

Derived from: UREA, Iron Glucoheptonate and Manganese Glucoheptonate.

Harmful if swallowed. Avoid contact with eyes, skin, and clothing. If on skin, wash with large amounts of soap and water. If in eyes, rinse repeatedly with clean water. If irritation persists, obtain medical attention.

APPLICATIONS

GREENS AND TEES (High Maintenance lawns): Apply 4-10 oz 12-0-0 with sufficient water to cover, per 1000 ft².

FAIRWAYS AND COMMERCIAL TURF: Apply 3 oz 12-0-0 with sufficient water to cover, per 1000 ft².

COOL SEASON GRASS: During Season apply 2-6 oz 12-0-0 with sufficient water to cover, per 1000 ft².

ORNAMENTALS: Apply 1% mix ratio 12-0-0 with water. (IE 1 gallon 12-0-0 to 100 gallons water)

SHRUBS / TREES: Mix 6 oz (small Shrubs/Trees) to 12 oz (large Shrubs/Trees) to 5 gallons of water pour around root zone of shrubs / trees.

Product can be applied via an irrigation system, set mix ration at 1-3%. Using lower setting if irrigation is run more than once per week.

CAUTION IRON WILL STAIN. WASH OFF CONCRETE, SIDING, STUCCO Etc. IMMEDIATELY.

Crop & Mix Test-To ensure compatibility with foreign spray mixes, a Jar & Crop to be Sprayed, compatibility test is recommended before mixing with other products other than water in the tank.

CONDITIONS OF SALE: BUYER ASSUMES ALL RESPONSIBILITY FOR USE, STORAGE, HANDLING AND DISPOSAL OF THIS PRODUCT WHEN EXTENDS ONLY TO REPLACEMENT OF DEFECTIVE PRODUCT. UAS OF AMERICA AND ITS DISTRIBUTOR'S LIMIT OF WARRANTY

Disclaimer

It is recommended not to use this product with fungicides or pesticides. However, if applied with a fungicide or pesticide, it is the users responsibility to conduct a trial application on the crop(s) to be sprayed with this mix of chemicals to determine compatibility of products and compatibility with crop(s) sprayed. When mixing with other spray materials a jar compatibility test is recommended.

SC 1200 is designed for soil and/or foliar application, to provide and correct pre-existing Nitrogen Manganese, Iron deficiencies as indicated by plant leaf and soil testing. The ingredients in SC 1200 are 100% water soluble and chelated.

Research has shown the plants can assimilate Micro nutrients better via foliar application than if the Micro nutrients were applied to the soil. The response is quicker and seems to be more effective. Even if you have micro Nutrients added in your granular NPK mix, you will not be getting the maximum benefits from them and essentially wasting money.

It would be recommended when applying in the soil to add our SUPER HUME concentrate to help buffer irregular soil pH, so the SC 1200 work faster and be last longer.

We use SUGAR BASED chelating compounds to make SC 1200 more Effective and Last Longer. SC 1200 contains no EDTA chelates.

* Helps Maintain Lush Healthy Lawn longer throughout Season* * More Effective Chelated system* * Excellent supply of Iron / Manganese * * Supplemental supply of Nitrogen*

Dispose of Waste Material according to local, state, and Federal environmental laws and regulations. Storage: Keep container sealed tightly when not in use. Do not expose to sunlight for long periods of time. Store in temperatures between 5 C (41 F) and 25 C (77 F).
